

Mei Kanda — Curriculum Vitae

2nd-year Master's student, Department of Earth and Planetary Science, Graduate School of Science, The University of Tokyo

iceqbie.github.io github.com/iceqbie linkedin.com/in/mei-kanda

Last updated: 2026-10-04

Education

Sep 2025–	The University of Tokyo, Graduate School of Science — Master's program, Department of Earth and Planetary Science 2nd year. Space plasma physics.
2019–Jun 2024	University of Toronto — Honours Bachelor of Science Graduated June 2024. Physics & Astrophysics Specialist, Statistics Minor.
2016–2019	Glenlyon Norfolk School — International Baccalaureate Bilingual Diploma

Work experience

Jun–Oct 2025	Tenchijin Inc. — Intern
2023–Aug 2024	GHELIA Inc. — Intern Fast physical simulation of object–fluid interaction with surrogate models; worked mainly on the differential-equation solver.
2019–2020	TCK workshop — Tutor

Research experience

Jan–Apr 2023	Research course PHYD01, University of Toronto Examining simulation errors in chaotic systems: a Python-based double-pendulum study.
May 2022–Apr 2023	Particle detector laboratory (ATLAS HL-LHC), University of Toronto ↗ Modelling the long-term annealing of ATLAS strip sensors for Run 4 planning.
Apr–Aug 2021	International Center for Elementary Particle Physics (ICEPP), The University of Tokyo Statistical analysis of SiPM (MPPC) saturation for the ILC experiment.

Publications

2025	On the Statistical Convergence of N-Body Simulations of the Solar System <i>The Open Journal of Astrophysics</i> arXiv ↗ DOI ↗
2024	Analysis of the Quality Assurance Results from the Initial Part of Production of the ATLAS18 ITk Strip Sensors <i>Nuclear Instruments and Methods in Physics Research Section A</i> Paper ↗ DOI ↗

2023	Experimental Study and Empirical Modeling of Long Term Annealing of the ATLAS18 Strip Sensors <i>Proceedings of Science (Pixel 2022)</i> DOI ↗
------	---

Presentations & awards

2026	Outstanding Student Presentation Award, JpGU-AGU Joint Meeting 2026 ↗
2026	JpGU-AGU Joint Meeting 2026 Poster: Validation of machine-learning-based closure models for collisionless plasmas in the linear regime
2025	SGEPSS Fall Meeting 2025 (Kobe) Poster: Linear properties of machine-learning-based closure models for collisionless plasmas

Extracurricular activities

2025	Satellite Data Analysis Seminar at Astrocamp (2025–2026) ↗ Organized the satellite data analysis seminar at Astrocamp.
2022–	ASE-Lab. — Facilitator, CanSat software team ↗ Organize seminars on satellite imagery and astrostatistics. Built a CanSat navigation-control algorithm and k-means image processing for the August 2022 competition.
2021–2022	Data Science and Statistics Club — Associate Wrote articles on applications of statistics, mainly in artificial intelligence.
2020–2023	TELSTAR (space outreach magazine) — PR Lead ↗
2019–2020	Vision of Science — Volunteer Senior Facilitator Science experiments and outreach for elementary-school students from low-income families.

Qualifications

2016	SAJ Ski Badge Test, Level 1
2016	SIA Ski Badge, Gold

Skills

Programming	Python, R, C++, ROOT
Strengths	Data processing, machine learning, satellite image analysis
Languages	Japanese, English
